Maniere de voir

Within two minutes, or even less, he had forgotten all his troubles. Not because his troubles were one whit less heavy and bitter to him than a man's are to a man, but because a new and powerful interest bore them down and drove them out of his mind for the time—just as men's misfortunes are forgotten in the excitement of new enterprises. This new interest was a valued novelty in whistling, which he had just acquired from a negro, and he was suffering to practise it un-disturbed. It consisted

time—just as men's misfortunes are forgotten in the excitement of new enterprises. This new interest was a valued novelty in whistling, which he had just acquired from a negro, and he was suffering to practise it undisturbed. It consisted in a peculiar bird-like turn, a sort of liquid warble, produced by touching the tongue to the roof of the mouth at short intervals in the midst of the music—the reader probably remembers how to do it, if he has ever been a boy. Diligence and attention soon gave him the knack of it, and he strode down the street with his mouth full of harmony and his soul full of gratitude. He felt much as an astronomer feels who has discovered a new planet—no doubt, as far as strong, deep, unalloyed pleasure is concerned, the advantage was with the boy, not the astronomer.

Brahms was fond of nature and often went walking in the woods around Vienna. He often brought penny candy with him to hand out to children.

Recent history of digital type left us surrounded by regularity and perfection in text fonts—a trend that will only intensify with a switch to digital media. Contemporary luddites with their love for letterpress and hand-made materials are running out of suitable fonts. For that reason, the typeface was designed with specific allowances for letterpress photopolymer printing. When printed digitally, it can tolerate and even benefit from low resolution, rough paper, and low-grade presswork.
